

CUVAISON
Napa Valley, Los Carneros

Green Practices

For the past 50 years, Cuvaison has been the leader in the area of sustainability. We're proud to have achieved our Napa Green Winery, Napa Green Land, Bay Area Green Business and Fish Friendly Farming certifications. We are dedicated to reducing Cuvaison's impact on our environment while continuing to look for new ways to create positive change in sustainability practices now and in the future. Our green initiatives touch every aspect of Cuvaison including:

- Viticulture
- Water Recycling & Conservation
- Soil Management
- Material Handling
- Solid Waste Reduction & Management
- Pest Management
- Energy Efficiency
- Environmentally Preferred Purchasing
- Wine Quality
- Neighbors & Community
- Ecosystem Management
- Air Quality

Assists and recognizes small businesses and public agencies that implement measures to conserve energy and water, minimize waste and prevent pollution.

Fish Friendly Farming is a certification program for agricultural properties managed to restore fish and wildlife habitat and improve water quality.

Members of the Napa Green Certified Land program are dedicated to improving the health of the Napa River watershed.

Napa Green Certified Wineries implement a minimum of 100 sustainability measures to save energy, conserve water, reduce waste, draw down greenhouse gas emissions, and build engagement around sustainability.
